FRIDAY, AUGUST 25, 1892.

A recruiting officer of the United  
States army is now located at Ash-  
land Ky.

Three thousand people fled from  
Brunswick, Ga., in one night, on  
account of the yellow fever.

Thousands of men have been put  
to work in Pittsburg by the re-  
sumption of the iron works. Other  
large concerns are also resuming  
operations in various parts of  
the country.

World's Fair officials estimate  
that the daily receipts from all  
sources now average \$80,000. The  
operating expenses are in the neighbor-  
hood of \$15,000 daily, and the  
net revenue of \$65,000 is expected  
by the directors to enable them to  
clear up all bonded and floating in-  
debtedness by the close of the  
Fair.

General Mason, of Frank-  
fort, Germany, has made a report  
to the State Department, in which  
he says that under the new tariff  
not only will Germany cease to  
draw from Russia the supplies of  
cotton and petroleum, every year  
amounting to many millions of  
dollars, but, owing to the drought,  
will have a serious deficit this year  
in her own home crop of grain,  
which will call for a very large im-  
portation of breadstuffs from the  
United States.

Notwithstanding the fact that  
Poston Commissioner Lockhart  
has turned the light on the pen-  
sion fund, and is enforcing the  
pension law without fear or favor,  
the number of pensions granted per  
day averages as many as when the  
Republicans had control of the  
Poston Office. The only differ-  
ence is there is no favoritism. All  
the old soldiers get a fair share for  
their white armpit, and the pension  
claims no longer run the Poston  
Office.—*Courier-Journal*.

In a very able speech on finance  
last Saturday Congressman Mc-  
Creary, of Kentucky, declared that  
the United States could not afford  
to adopt a five centage policy at  
present, as no country could alone  
maintain such a policy without  
coming to a single silver basis,  
which would send all of our \$65,-  
000,000 of gold to Europe. Re-  
peal, he thought, would help to bring  
about an international agreement  
for bimetallism, which was the  
only path to the free coinage of silver.

The meeting of the Monetary Con-  
ference, of which he was a member,  
he said, had been postponed from  
May until November in order to allow  
the policy of bimetallism to grow in  
England. His views are considered very important from  
the fact that he is a member of the  
International Monetary Conference,  
and understands the situation as regards our foreign relations.

In the committee assignments in  
the lower House of Congress, Ken-  
tucky gets three Chairmanships:  
McCreary, Foreign Affairs; Ellis,  
Revision of the Laws, and Mont-  
gomery, Expenditures in the War  
Department. In addition to this  
Montgomery is on the Ways and  
Means; Breckinridge, spread on  
Appropriations; Stone, second on  
War Claims and Coinage; Payne,  
third on Elections, and on Expen-  
ditures in the State Department;  
Gould, on the Judiciary; Ellis,  
on Banking and Currency; Garth,  
on Public Railroads and Foreign  
and Interstate Commerce; Berry,  
on Public Buildings and Grounds  
and Merchant Marine and Fisheries;  
Lusk on Pensions and Irrigation  
of Arid Lands; Adams, on  
Mint. The State has a representa-  
tive on each of the four most impor-  
tant committees in the House—  
Ways and Means, Appropriations,  
Foreign Affairs and Judg-  
ment.

REASLY ANNOUNCE.  
We build houses for sale, rents, leases, lever-  
age, and other purposes. We have  
a large stock of lumber, hardware, and  
other building materials. We are  
located in the heart of the city. It is  
a good place to live in, and we are  
ready to furnish you with all the  
information you desire.

West Point cadets are in camp at  
the exposition grounds. They ar-  
rived last week by special train,  
the day after their camp outfit came.  
The camp is now under the com-  
mand of Maj. Spurgeon of West  
Point. The cadets came fully 60  
strong, commanded by several reg-  
ular army officers of various ranks.  
They were also accompanied by  
the West Point band, which is one  
of the best in the service. Their  
outing will take the place of the  
usual summer encampment of the  
boys at West Point. They will re-  
main at the World's Fair for about  
ten days, although this period may  
be extended. This will be, by all  
means, the most interesting and at-  
tracting encampment that has been  
or will be held at Jackson park this  
season. The perfection of drill  
that the cadets attain is one of the  
chief attractions at the popular re-  
sort on the Hudson river. The  
routine of camp life is as rigid as it  
is during the regular summer en-  
campment. It consists of long  
drilling various hours during the  
day and a dress parade at 5 o'clock  
in the evening.

The king-sized boys who have  
been pushing old ladies, delicate  
girls and lay men around the fair  
grounds at 75 cents per hour have  
struck. They have been getting \$1  
per day and 10 per cent of the  
profits. A few days ago the pushers  
were informed that their pay would  
be reduced to 75 cents a day.

The boys held an indignation  
meeting and students who have  
taken part in the intercollegiate or  
school contests numerous among  
the pushers. The protest was  
eloquent, fervid, and emphatic.

There were fully 200 of the 300  
pushers at the meeting, and they  
were unanimous in declaring that  
they would quit work unless the  
company abandoned the idea of re-  
ducing their wages. Resolutions  
to this effect were adopted and a  
committee of five was appointed to  
negotiate with President McGinnis  
and Manager Adams of the com-  
pany.

There is no question that the fair  
is on the boom and everybody ex-  
pects to see it boom from now on.  
The average now struck is consider-  
ably over 100,000 paid admissions  
daily.

The most attractive feature of the  
route of administration building  
these days is the mode of the trea-  
sury at Washington, built of Colum-  
bian souvenir coins. Crowds of  
people surround the silver fence  
that incloses the model all day long  
and half a dozen pretty girls are  
kept busy selling coins and answer-  
ing questions. In spite of the fact  
there are placards on each four  
sides of the model explaining what  
it is, the most frequent question  
put to the salesgirls is: "What  
building is this?" When the  
answer comes the questioner gen-  
erally looks incredulous and says:  
"Are you sure, I thought it was the  
manufacturers building." Director  
Peek is elated at the success of the  
venture as a means of disposing of  
the Columbian halves and believes  
that a great many coins will be  
left before the close of the fair.

Ansel Alerman's financial state-  
ment for July, issued last week,  
shows that more than \$500,000 have  
already been realized in premiums  
on the souvenir coins.

The rajah, with George Francis  
Train, have been monopolizing at-  
tention lately. They attract more  
attention than any other visitors  
who have attended.

The most unique spectacle yet  
seen at the fair was the interna-  
tional ball in Midway, Wednesday  
night, which was attended by all  
the fops and broadesses the fair  
could produce. George Francis  
Train led the grand march. Dutchmen,  
Samoaans, Turkish girls, Japane-  
se, Indians, Laplanders, Japanese,  
Ethiopia, Fujian, and about every-  
thing else under the canopy of heaven  
twisted their toes together, while the  
Rajah looked contentedly on. It was a great show and became  
exceedingly brisk before  
morning.

A young lad who gives his name  
as Johnny Sampled his home as  
No. 221 Ontario street, was caught  
in the act of slipping into Cairo  
street. Johnny claims to have  
been doing the fair for three  
months without costing him a  
penny. More than that, he has  
ridden back and forth on the Illinois  
Central trains all that time,  
too, and the rods have cost him  
nothing. If he hadn't been too  
confiding he might have kept up  
his free rides and free admissions  
all summer but in a moment of  
exaltation he confided to a stranger  
whom he met beside in the car his  
great success. This stranger was a  
Colombian guard in civilian  
clothes. This guard was on duty  
in front of Cairo street when he  
recognized the boy trying to get in.

Johnny is not more than 18  
years old, and is evidently a street  
urchin turned up and out with edu-  
cational ambitions. He says he

watches his chores at the gates to  
the grounds and to the various  
Midway exhibitions until he gets  
another looking donna enter. He gets up close to her as she  
passes the gatekeeper, then he stops  
and appears to be looking around  
until the lady gets some distance  
away. He then claims that the lady  
is his mother and that he is  
under 7 years of age. Rather than  
get the boy lost from his mother  
he gives him in. Johnny says he  
has been doing the fine arts lately,  
and that he has worked the Inter-  
national and Illinois Central  
trains by means of a ticket which  
he had attached to a rubber fastener  
up his sleeve. He would hold this  
over the slot and let go of it  
when the rubber would draw it up  
his sleeve again.

The Ferris wheel is the greatest  
financial success on the grounds.  
It is taking money right along  
every day. The big wheel will be  
removed to Coney Island after the  
fair.

The Two Kees.

We little boy was very bad after two  
months with diphtheria. We used  
various medicines administered to him but  
nothing helped him until we used  
Chambers' Bromo-Seltzer and Bromo-  
seltzer remedy which gave him some  
relief and soon cured him. I con-  
sider it THE BEST REMEDY

as the skull is not fractured.

C. R. Stuart and Bob, S. Phillips,  
who were recently examined for  
certificates of eligibility to the  
office of County Superintendent of  
Schools, have both received certifi-  
cates. They will probably be in-  
vited to speak at the meeting of  
the commissioners.

The court met again yesterday  
and an effort was made to have an  
order issued for the expenditure of  
\$500 to be paid in county orders  
which would be received in pay-  
ment of taxes. The object was to  
enable poor people to pay their  
taxes in work. After a considerable  
argument the court decided  
that the plan proposed was not  
feasible. The question of issuing bonds  
was also discussed, but the  
only action taken was to direct the  
County Attorney to ascertain what  
can be done toward negotiating  
such bonds.

**A Killing in Floyd County.**

On last Saturday evening in  
Floyd county, near McDowell post-  
office, on Beaver, Wm. Jones (son  
of the notorious Clabe Jones) and  
Henry Bently went to the resi-  
dence of old man Morgan Turner,  
one of the best citizens of the  
country, about dark. They found him  
and his wife and a servant girl sit-  
ting on the porch. They approached  
slowly and suddenly grabbed the  
old man, at the same time shoot-  
ing to the women that ten  
companions were coming and that  
they would better run for their  
lives, which they did. While  
Jones searched the old man's clothes  
Bently was firing into the house.  
Jones found about nine  
dollars in Turner's person and to  
make him tell where more money  
was he placed a rope around his  
body, killing him. Bently was  
carried away hurriedly. He is  
not yet captured. There is a  
reward of \$175 for him. He is  
thought to have gone to Elliott  
county.

**The Roads.**

The Commissioners were in session  
Monday and the roads question  
was again the leading topic.  
The only action taken was to order  
Judge Will Rice to open the road  
surveyed around by way of Lick  
creek with the hands living above  
Franklin street; and Frank Jones  
was ordered to utilize on the hill  
road the labor between Franklin  
and Main streets.

The court met again yesterday  
and an effort was made to have an  
order issued for the expenditure of  
\$500 to be paid in county orders  
which would be received in pay-  
ment of taxes. The object was to
